Θέμα: DS20220419136 Termination notice due to terms violation: spanos.club, spanos.supply, spanosthomas.com

Hello,

I refer to the final warning we gave you in late 2017 regarding terms violations.

During Easter, you have sent an identical mass mailing to a total of 1219 recipients.

As we have repeatedly explained to you, this is a terms violation.

On 18 December 2017, you confirmed you had read the following final warning we gave you:

"If you perform a single other mass mailing at any time in the future, from any of your accounts, we will terminate all services and all domain registrations you have with us."

This is that mass mailing, and we cannot abide customers who repeatedly violate our terms.

We are hereby terminating all remaining services and all remaining domain registrations you have with us:

spanos.club

spanos.supply

spanosthomas.com

We have unlocked these domains and sent you authorization codes for use with your new domain provider.

You must immediately and without delay download any content you wish to keep, including email content.

We will delete all content and services early Monday 25 April 2022.

We have also severely restricted your ability to send new emails using our systems for the remainder of the period.

Max recipients: 3

Max recipients/minute (sending attempts): 3

Max recipients/hour (sending attempts): 10

Max recipients/day (sending attempts): 20

Best regards,

Jan
